President's Message:

Change is hard; this is just an honest truth, but if we do not move forward and embrace change we will stagnate and become less and less relevant as businesses, leaders, and as a community.

We have been through many economic, governmental and even environmental changes.

The question, however, should not be "how do I survive these turbulent and chaotic times?", but instead, we should be finding ways to innovate and capitalize on the exciting new opportunities that exist within this changing environment.

This is who we are as Albertans. We are innovators who find solutions where others cannot. We are the entrepreneurs who create opportunities where others see only costs and failure.

I will remember with gratitude the work of those who have built this beautiful community. Then we will work hard to create the changes necessary to ensure that Camrose will continue to be a prosperous community.

Julie Girard, President
